Data Protection Policy

Introductory Statement

The school's Data Protection Policy applies to the personal data held by the school which is protected by the Data Protection Acts 1988 and 2003.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians and applicants for staff positions within the school) insofar as the measures under the policy relate to them. Data will be stored securely, so that confidential information is protected in compliance with relevant legislation. This policy sets out the manner in which personal data and sensitive personal data will be protected by the school.

Data Protection Principles

The school is a *data controller* of *personal data* relating to its past, present and future staff, students, parents/guardians and other members of the school community. As such, the school is obliged to comply with the principles of data protection set out in the Data Protection Acts 1988 and 2003 which can be summarised as follows:

- **Obtain and process *Personal Data* fairly:** Information on students is gathered with the help of parents/guardians and staff. Information is also transferred from their previous schools. In relation to information the school holds on other individuals (members of staff, individuals applying for positions within the School, parents/guardians of students etc.), the information is generally furnished by the individuals themselves with full and informed consent and compiled during the course of their employment or contact with the School. All such data is treated in accordance with the Data Protection Acts and the terms of this Data Protection Policy. The information will be obtained and processed fairly.
- **Keep it only for one or more specified and explicit lawful purposes:** The School will inform individuals of the reasons they collect their data and will inform individuals of the uses to which their data will be put. All information is kept with the best interest of the individual in mind at all times.
- **Process it only in ways compatible with the purposes for which it was given initially:** Data relating to individuals will only be processed in a manner consistent with the purposes for which it was gathered. Information will only be disclosed on a need to know basis, and access to it will be strictly controlled.
- **Keep *Personal Data* safe and secure:** Only those with a genuine reason for doing so may gain access to the information. Sensitive Personal Data is securely stored under lock and key in the case of manual records and protected with firewall software and password protection in the case of electronically stored data. Portable devices storing personal data (such as laptops) should be encrypted and password protected before they are removed from the school premises. Confidential information will be stored securely and in relevant circumstances, it will be placed in a separate file which can easily be removed if access to general records is granted to anyone not entitled to see the confidential data.
- **Keep *Personal Data* accurate, complete and up-to-date:** Students, parents/guardians, and/or staff should inform the school of any change which the school should make to their personal data and/or sensitive personal data to ensure that the individual's data is accurate, complete and up-to-date. Once informed, the school will make all necessary changes to the relevant records. The principal may delegate such updates/amendments to another member of staff. However, records must not be altered or destroyed without proper authorisation. If alteration/correction is required, then a note of the fact of such authorisation and the alteration(s) to be made to any original record/documentation should be dated and signed by the person making that change.
- **Ensure that it is adequate, relevant and not excessive:** Only the necessary amount of information required to provide an adequate service will be gathered and stored.

- **Retain it no longer than is necessary for the specified purpose or purposes for which it was given:** As a general rule, the information will be kept for the duration of the individual's time in the school. Thereafter, the school will comply with DES guidelines on the storage of Personal Data and Sensitive Personal Data relating to a student. In the case of members of staff, the school will comply with both DES guidelines and the requirements of the Revenue Commissioners with regard to the retention of records relating to employees. The school may also retain the data relating to an individual for a longer length of time for the purposes of complying with relevant provisions of law and or/defending a claim under employment legislation and/or contract and/or civil law.
- **Provide a copy of their *personal data* to any individual, on request:** Individuals have a right to know what personal data/sensitive personal data is held about them, by whom, and the purpose for which it is held.

Scope

Purpose of the Policy: The Data Protection Acts 1988 and 2003 apply to the keeping and processing of *Personal Data*, both in manual and electronic form. The purpose of this policy is to assist the school to meet its statutory obligations, to explain those obligations to School staff, and to inform staff, students and their parents/guardians how their data will be treated.

The policy applies to all school staff, the board of management, parents/guardians, students and others (including prospective or potential students and their parents/guardians, and applicants for staff positions within the school) insofar as the school handles or processes their *Personal Data* in the course of their dealings with the school.

Definition of Data Protection Terms

In order to properly understand the school's obligations, there are some key terms which should be understood by all relevant school staff:

Data means information in a form that can be processed. It includes both *automated data* (e.g. electronic data) and *manual data*. *Automated data* means any information on computer, or information recorded with the intention that it be *processed* by computer. *Manual data* means information that is kept/recorded as part of a *relevant filing system* or with the intention that it form part of a relevant filing system.

Relevant filing system means any set of information that, while not computerised, is structured by reference to individuals or by reference to criteria relating to individuals, so that specific information relating to a particular individual is readily, quickly and easily accessible.

Personal Data means data relating to a living individual who is or can be identified either from the data or from the data in conjunction with other information that is in, or is likely to come into, the possession of the Data Controller i.e. the school.

Sensitive Personal Data refers to *Personal Data* regarding a person's

- racial or ethnic origin, political opinions or religious or philosophical beliefs
- membership of a trade union
- physical or mental health or condition or sexual life
- commission or alleged commission of any offence or
- any proceedings for an offence committed or alleged to have been committed by the person, the disposal of such proceedings or the sentence of any court in such proceedings, criminal convictions or the alleged commission of an offence.

Data Controller for the purpose of this policy is the Board of Management of Crescent College Comprehensive SJ.

Rationale

In addition to its legal obligations under the broad remit of educational legislation, the school has a legal responsibility to comply with the Data Protection Acts, 1988 and 2003.

This policy explains what sort of data is collected, why it is collected, for how long it will be stored and with whom it will be shared. As more and more data is generated electronically and as technological advances enable the easy distribution and retention of this data, the challenge of meeting the school's legal responsibilities has increased.

The school takes its responsibilities under data protection law very seriously and wishes to put in place safe practices to safeguard individual's personal data. It is also recognised that recording factual information accurately and storing it safely facilitates an evaluation of the information, enabling the principal and board of management to make decisions in respect of the efficient running of the School. The efficient handling of data is also essential to ensure that there is consistency and continuity where there are changes of personnel within the school and board of management.

Other Legal Obligations

Implementation of this policy takes into account the school's other legal obligations and responsibilities. Some of these are directly relevant to data protection. **For example:**

- Under Section 9(g) of the Education Act, 1998, the parents of a student, or a student who has reached the age of 18 years, must be given access to records kept by the school relating to the progress of the student in their education
- Under Section 20 of the Education (Welfare) Act, 2000, the school must maintain a register of all students attending the School
- Under section 20(5) of the Education (Welfare) Act, 2000, a principal is obliged to notify certain information relating to the child's attendance in school and other matters relating to the child's educational progress to the principal of another school to which a student is transferring
- Under Section 21 of the Education (Welfare) Act, 2000, the school must record the attendance or non-attendance of students registered at the school on each school day
- Under Section 28 of the Education (Welfare) Act, 2000, the School may supply *Personal Data* kept by it to certain prescribed bodies (the Department of Education and Skills, the National Education Welfare Board, the National Council for Special Education, other schools, other centres of education) provided the School is satisfied that it will be used for a "relevant purpose" (which includes recording a person's educational or training history or monitoring their educational or training progress in order to ascertain how best they may be assisted in availing of educational or training opportunities or in developing their educational potential; or for carrying out research into examinations, participation in education and the general effectiveness of education or training)
- Under Section 14 of the Education for Persons with Special Educational Needs Act, 2004, the school is required to furnish to the National Council for Special Education (and its employees, which would include Special Educational Needs Organisers ("SENOs")) such information as the Council may from time to time reasonably request
- The Freedom of Information Act 1997 provides a qualified right to access to information held by public bodies which does not necessarily have to be "personal data" as with data protection legislation. While schools are not currently subject to freedom of information legislation, if a school has furnished information to a body covered by the Freedom of Information Act (such as the Department of Education and Skills, etc.) these records could be disclosed if a request is made to that body
- Under Section 26(4) of the Health Act, 1947 a School shall cause all reasonable facilities (including facilities for obtaining names and addresses of pupils attending the school) to be given to a health authority who has served a notice on it of medical inspection, e.g. a dental inspection
- Under *Children First: National Guidance for the Protection and Welfare of Children* (2011) published by the Department of Children & Youth Affairs, schools, their boards of management and their staff have responsibilities to report child abuse or neglect to TUSLA - Child and Family Agency (or in the event of an emergency and the unavailability of TUSLA, to An Garda Síochána).

Relationship to characteristic spirit of the School (School's mission/vision/aims)

Crescent College Comprehensive SJ seeks to:

As an important means of doing this the school strives to create a strong sense of community between parents, students and teachers.

We aim to achieve these goals while respecting the privacy and data protection rights of students, staff, parents/guardians and others who interact with us. October Returns

- (a) **Categories:** At the beginning of each academic year (and for 1st year or transferring students, on enrolment) parents/guardians and students are asked to provide the school with certain information so that the School can make returns to the Department of Education and Skills (“DES”) referred to as “October Returns”. These October Returns will include sensitive personal data regarding personal circumstances which are provided by parents/guardians and students on the basis of explicit and informed consent. The October Return contains individualised data (such as an individual student’s PPS number) which acts as an “identifier” for the DES to validate the data that belongs to a recognised student. The DES also transfers some of this data to other government departments and other State bodies to comply with legislation, such as transfers to the Department of Social Protection pursuant to the Social Welfare Acts, transfers to the State Examinations Commission, transfers to the Educational Research Centre, and transfers to the Central Statistics Office pursuant to the Statistics Acts. The data will also be used by the DES for statistical, policy-making and research purposes. However the DES advises that it does not use individual data, but rather aggregated data is grouped together for these purposes. The DES has a data protection policy which can be viewed on its website (www.education.ie). The DES has also published a “Fair Processing Notice” to explain how the personal data of students and contained in October Returns is processed. This can also be found on www.education.ie (search for Circular Letter 0047/2010 in the “Circulars” section).
- (b) **Purposes:** The school asks parents/guardians and students to complete October Returns for the purposes of complying with DES requirements to determine staffing and resource allocations and to facilitate the orderly running of the school. The main purpose of the October Returns is for the DES to determine whether the student qualifies for English language support and/or additional resources and support to meet their particular educational needs. The October Returns are submitted to the DES electronically. The DES has their own policy governing the security of the data sent to them by all post-primary schools. The co-operation of each student and/or their parents/guardians in completing the October Return is greatly appreciated as the school’s aim is to ensure that each student is assisted in every way to ensure that s/he meets his/her full potential.
- (c) **Location:** In a secure, locked filing cabinet that only personnel who are authorised to use the data can access. Employees are required to maintain the confidentiality of any data to which they have access.
- (d) **Security:** The school uses P-Pod which is the DES data database package which only relevant personnel have any access i.e. school secretary, Deputy principal and Principal. The school’s Administration package is CMIS Facility. Staff access relevant data through pass worded laptops/computers and CMIS Facility requires unique teacher passwords, which are not automatically saved.

The following policies may be among those considered:

- Child Protection Policy

The individual must make this request in writing and the data controller will accede to the request within 21 days.

The right under Section 3 must be distinguished from the much broader right contained in Section 4, where individuals are entitled to a copy of their data.

- Section 4 access request

Individuals are entitled to a copy of their personal data on written request.

- The individual is entitled to a copy of their personal data (subject to some exemptions and prohibitions set down in Section 5 of the Data Protection Act)
- Request must be responded to within 40 days
- Fee may apply but cannot exceed €6.35
- Where a subsequent or similar request is made soon after a request has just been dealt with, it is at the discretion of the school as data controller to comply with the second request (no time limit but reasonable interval from the date of compliance with the last access request.) This will be determined on a case-by-case basis.
- No personal data can be supplied relating to another individual unless that third party has consented to the disclosure of their data to the applicant. Data will be carefully redacted to omit references to any other individual and only where it has not been possible to redact the data to ensure that the third party is not identifiable would the school refuse to furnish the data to the applicant.

Providing information over the phone

In our school, any employee dealing with telephone enquiries should be careful about disclosing any personal information held by the school over the phone. In particular the employee should:

- Suggest that the caller put their request in writing if the employee is not sure about the identity of the caller and in circumstances where the identity of the caller cannot be verified
- Refer the request to the principal for assistance in difficult situations. No employee should feel forced into disclosing personal information.

Implementation arrangements, roles and responsibilities

Name	Responsibility
Board of management:	Data Controller
Principal:	Implementation of Policy
Teaching personnel:	Awareness of responsibilities
Administrative personnel:	Security, confidentiality
IT personnel:	Security, encryption, confidentiality

Ratification & communication

When the Data Protection Policy has been ratified by the board of management, it becomes the school's agreed Data Protection Policy. It should then be dated and circulated within the school community. The entire staff must be familiar with the Data Protection Policy and ready to put it into practice in accordance with the specified implementation arrangements. It is important that all concerned are made aware of any changes implied in recording information on students, staff and others in the school community.

Parents/guardians and students should be informed of the Data Protection Policy from the time of enrolment of the student e.g. by including the Data Protection Policy as part of the Enrolment Pack, by either enclosing it or incorporating it as an appendix to the enrolment form.

Monitoring the implementation of the policy

The implementation of the policy shall be monitored by the Principal and a sub-committee of the board of management.

At least one annual report should be issued to the board of management to confirm that the actions/measures set down under the policy are being implemented.

Reviewing and evaluating the policy

The policy should be reviewed and evaluated at certain pre-determined times and as necessary. On-going review and evaluation should take cognisance of changing information or guidelines (e.g. from the Data Protection Commissioner, Department of Education and Skills or the NEWB), legislation and feedback from parents/guardians, students, school staff and others. The policy should be revised as necessary in the light of such review and evaluation and within the framework of school planning.

Retention of Records

Crescent College Comprehensive SJ in its role as a Data Controller, is conscious of its statutory obligations to be fully transparent in relation to the length and time for which personal data will be kept. The Board of Management has put in place procedures to ensure compliance with all directives in relation to the storing and retention of data sought by the school.

Attached are listed guidelines to the length of time various categories of data are stored at the school.

Records Retention Schedule

CRESCENT COLLEGE COMPREHENSIVE SJ

Retention of Records

Schools as *data controllers* must be clear about the length of time for which personal data will be kept and the reasons why the information is being retained. In determining appropriate retention periods, regard must be had for any statutory obligations imposed on a data controller. If the purpose for which the information was obtained has ceased and the personal information is no longer required, the data must be deleted or disposed of in a secure manner. It may also be anonymised to remove any personal data. Anonymisation must be irrevocable; removing names and addresses may not necessarily be sufficient.

In order to comply with this legal requirement, *Crescent College Comprehensive SJ* has assigned specific responsibility and introduced procedures for ensuring that files are purged regularly and securely and that personal data is not retained any longer than is necessary. All records will be periodically reviewed in light of experience and any legal or other relevant indications.

IMPORTANT: In all cases, schools should be aware that where proceedings have been initiated, are in progress, or are reasonably foreseeable (although have not yet been taken against the school/board of management/an officer or employee of the school (which may include a volunteer)), all records relating to the individuals and incidents concerned should be preserved and should under no circumstances be deleted, destroyed or purged. The records may be of great assistance to the school in defending claims made in later years.

WARNING: In general, the limitation period does not begin to run until the person concerned acquires knowledge of the facts giving rise to the claim and the Statute of Limitations may be different in every case. In all cases where reference is made to "18 years" being the date upon which the relevant period set out in the Statute of Limitations commences for the purposes of litigation, the school must be aware that in some situations (such as the case of a student with special educational needs, or where the claim relates to child sexual abuse, or where the student has not become aware of the damage which they have suffered, and in some other circumstances), the Statute of Limitations **may not begin to run when the student reaches 18 years of age and specific legal advice should be sought by schools on a case-by-case basis.** In all cases where retention periods have been recommended with reference to the relevant statutory period in which an individual can make a claim, these time-frames may not apply where there has been misrepresentation, deception or fraud on the part of the respondent/defendant. In such a circumstance, the school should be aware that the claim could arise many years after the incident complained of and the courts/tribunals/employment fora may not consider the complainant to be "out of time" to make their claim.

Exceptions to the Right of Access

Individuals have a strong right of access to see their personal data. However, section 5 of the Data Protection Acts provides that individuals do not have a right to see information relating to them where any of the following circumstances apply.

If the information is kept for the purpose of preventing, detecting or investigating offences, apprehending or prosecuting offenders, or assessing / collecting any taxes or duties: but only in cases where allowing the right of access would be likely to impede any such activities

Comment: It would obviously be unacceptable to allow a criminal suspect to see all of the information kept about him by An Garda Síochána, where this would be likely to impede the effectiveness of the criminal investigation. On the other hand, however, if allowing an individual access to personal information about him or her would not be likely to impede an investigation, then the access request would have to be complied with. (see case study 2/04)

If granting the right of access would be likely to impair the security or the maintenance of good order in a prison or other place of detention

If the information is kept for certain anti-fraud functions: but only in cases where allowing the right of access would be likely to impede any such functions

If granting the right of access would be likely to harm the international relations of the State

If the information concerns an estimate of damages or compensation in respect of a claim against the organisation, where granting the right of access would be likely to harm the interests of the organisation

If the information would be subject to legal professional privilege in court

If the information is kept only for the purpose of statistics or carrying out research, but only where the information is not disclosed to anyone else, and where the results of the statistical work or research are not made available in a form that identifies any of the individuals involved

If the information is back-up data.

Comment: It would be unreasonable to expect an organisation to retrieve back-up copies of its personal information in responding to an access request. However, it should be noted that back-up data is not necessarily the same as old or archived data. Such archive data is subject to an individual's right of access in the normal way.
