

## **Guidelines & Suggestions from School Principal:**

As we start into the second week of school closure we understand that this is a difficult time. It is challenging to remain motivated regarding school work, when we are unsure of what exactly lies ahead with regard to this school year. It is great to have received so much positive feedback from your teachers regarding the level of work that so many of you have engaged in. Well done to you on this and for those of you that are having difficulties getting started we think that it will be helpful if you can set yourself a goal that's achievable and work towards that. We would recommend that you keep on top of your school work as best you can and to do this we have included the following tips.

### **Continuous Learning Guide for Crescent Students:**

Establish a daily routine to support your learning.
