

CRESCENT COLLEGE COMPREHENSIVE S.J. SCHOOL APP

Connect. Inspire. Grow.

WELCOME TO THE Crescent College Comprehensive S.J. APP

The App will be the school's main communications channel with parents and students going forward.

It provides a single touch point for easy and instant access to all school communications, calendar and a range of functionality including Absentee Reporting, Permission Forms and direct links to other third party, school related, information. The school will be phasing out text messaging and reducing postal communications to a minimum. This will allow the school to both reduce costs and its environmental footprint. The App will continue to evolve and develop, enabling the school to move the majority of its administration with parents and students into the digital environment.

The school requires all parents and students to download the App. It is important that you register in the App using the same contact details (first name, surname, mobile, date of birth, email) that you have previously supplied to the school and which is held on our administration system as these details will be used in the verification process.

Verification Process – Parents

When you download and register in the App you will be brought through a verification process for your email address and mobile number. You will need to go to your email inbox to see the email sent from Unique Publishing (please check JUNK also) and VERIFY link. This will complete the email verification. You will then be sent a code via SMS to verify your mobile number

(parents only). Please use this code to complete this stage of the verification process.

The school will then carry out a final verification process at the Administration Level to confirm your identity and details. Please note that some functions (including Absentee Reporting, Permission Slips, Access to Third Party information) will not be available to you until this verification has been completed. Please allow 7-10 working days from registration for the school to do this.

Please take a few minutes to read through this brochure, which outlines all of the functionality in our App and shows how to download and set your notifications.
